Skirts, aprons, kitchen curtains made out of tobacco cloths, curtains that can be used in a dining or living room.

We have forty-five on fall with low average attendance.

The interest has been high. There is no more desire for mental improvement than hard work. Of course you could not do so great many things in two hours. Since the holidays women have been coming an extra day so they could get their serving done.

Time spent teaching: 24 hours a month. Classwork: studying 12 hrs a month. Preparation at least...
72 hours a month and this is minimum—not including the sleepless nights and constant awareness of the task we are trying to accomplish and gathering materials a data.
